9	Enclosures:	1. Report 2. Photos		

REPORT:

Environmental awareness means educating people about ecology. It is necessary to cease the harm which individual does to nature by anthropogenic activities. Moreover, Environmental awareness serves as an idea that enables humans across the region to understand the economic, exquisite, and biological importance of the environment and how to protect and preserve them by eliminating human activities. Furthermore, Sustainable development, connection with nature, and encouragement for the protection of environmental pollution are only possible by environmental awareness.

With this regards our NSS Unit organized an awareness programme on Workshop on Save Environment. Shri R. K. Mone was the resource Person to the Workshop. He stressed on The develop a basic understanding of the environment awareness sector. Therefore, they immediately identify areas of concern like oil drilling and water purification and educate people about such issues and solutions. When engaging people to learn about environmental awareness, it records reactive and proactive responses.

He in his speech add that we have to Stress on 3R and Measures to Control different types of Pollution. Ultimately advocate understands the harm by human activities done on species, and then it takes corrective actions to spread environmental awareness. The government of India took the supreme step, "Swachhha Bharat Abhiyan" to promote environmental awareness, which is possible because of media. Furthermore, Awareness includes using safe and non-toxic building supplies, conserving energy, and water. An easy way to encourage environmental awareness is to become an environmental steward to create a brighter futur
