One Day Workshop on "What after PUC?"

Pre-university or 12th standard is the most crucial stage in a student's life. Students at this stage need to decide their career path, and that, in most cases, is a million dollar question. This step has to be taken after lots of planning and thinking. Carelessness in taking such life-altering decisions can lead to disastrous consequences. They need to take into consideration various factors such as their interests, job scope, opportunities etc while choosing their careers. This process gets simplified if they get an opportunity to attend an interactive session with professionals who are subject matter experts in their domain.

With this regards our college organizes a One Day Workshop on "What after PUC?" on 06-02-2017. Shri Praveen Godi was the resource person to te workshop stated that, due to peer/parental pressure, students frequently end up making hasty decisions about their careers, and get into a field of study they're not cut out for. Another frequent mistake is looking for career guidance after 12th exams are over; this is something that they ought to seek out as early as possible. A little extra time spent doing research can prevent them from making serious career mistakes.

The workshop is a general programme providing a broad overview of the numerous career options available to students after 2nd PU Arts, Commerce and Science , with an introduction to career planning. The interactive workshop, using audio-visual aids, assists students in identifying career options and appropriate higher education routes for each, thus enabling them determine the steps they need to take to equip themselves with for a professional career.

This workshop is for the students who are currently pursuing their 2nd PU Arts, Commerce and science. During the question and answer sessions, students and their parents can put forward any question they may have on the different options available, as also on the most suitable institutions for studying in India and abroad and the job opportunities thereafter.

All the students will be provided with a free career path chart, which will help them to understand A-Z courses which they can pursue in India after 2nd
