Halakeri" Totally 80 high school girls were made aware of menstrual hygiene, associated topics and use of sanitary napkins. Dr. Anita Dharana of Mahatma Ghandhi Memorable Charitable Hospital, Gadag was the resource person of this programme.

Madam stated that a large number of adolescent girls from rural areas of India are still not aware about issues related to menstruation and maintaining personal hygiene during this period and dealing with associated physical problems. They usually don't get a proper platform to get information or discuss such issues. An awareness session was conducted in which all associated topics related to menstruation were explained to adolescent school girls, like what is menstruation, calculation of the period, physical problems faced by girls during their periods and ways to deal with it, maintaining personal hygiene during this period and importance of maintaining hygiene, avoiding the traditional methods of using dirty cloths and promoting use of sanitary napkins, etc. Traditional myths and misconceptions in rural areas related to menstruation were discussed. FAQs by the girls and Women related to the topic were answered by the facilitator. Dr Veena E concluded the programme with Vote of Thanks.
